Objective

To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately.

Education

- **Kongunadu College of Arts and Science** 2022
Msc. Computer Science
70%
- **VLB Janakiammal College of Arts and Science** 2019
Bsc. Computer Science
58%

Skills

- HTML, CSS, JAVASCRIPT,BOOTSTRAP, J QUERY, REACT Js, SQL(basics),GIT

Projects

- **Billing system for department store(UG Project)**
The system is very simple in design and to implement. The system requires very low system resources and the system will work in almost all configurations.It has got following features.
 1. Ensure data accuracy's.
 2. Minimum time needed for the various processing.
 3. Better service.
 4. Detailed receipts.
 5. Expanded payment capabilities.
- **Software Piracy Protection(PG Project)**
This system is very much practical and growth.The user has to book the software through online by providing his MAC-ID. Then admin is to generate an key for that particular product based on the MAC-ID. Once key is generated then admin delivers to user.The user can access the product by providing this Id as a password. As key is based on different MAC-ID and this product will work only on that particular system.
 1. If the software gets pirated then it would lead to loss of revenue and have a bad impact.This system is useful in making revenues
 2. No one can copy the software or share as it requires an activation code that is different for each individual.
 3. Highly robust and secure system

Webinar

- 1.I have participated in the webinar of 'DIGITAL SECURITY' conducted by the IT club of NCM.
- 2.I have participated in seven days short term training program on 'cyber security and threat landscape'.

Languages

- Tamil
- English

Certificates

- I have completed and certified UI with Reactjs course at Qtree Technologies in coimbatore.
